Technical Skills

Programming Languages: JavaScript, C#, HTML, CSS

Frontend: React, Tailwind CSS, HTML, CSS

Backend: Node.js

Version Control: Git, GitHub

Projects

[Itinera.io] – [UI / UX developer]

It was my responsibility to code the frontend portion of this project i also gave feedback on what could be done differently.

- About half of the Front End for this project was written by me including but not limited to: The Homepage, Initialize trip feature...
- I used Next.JS and TypeScript
- I helped advise the leader on what could be done differently with certain features of her initial design

Education

CodeStack Academy – *Expected 2025*

- Full-stack development training with a focus on JavaScript, React, and Node.js.

Lathrop High School – *Diploma, 2024*

Experience

CodeStack Intern – 2025

- Gained hands-on experience in web development, working with modern technologies.
- Built and maintained projects using JavaScript, React, and Tailwind CSS.
- Collaborated with developers to improve application performance and user experience.
